Subject:	Acquisition of Wells Fargo Corporate Trust Services and Entitlement Offer

Computershare Limited (ASX: CPU) today announces that it has entered into an agreement to acquire the assets of Wells Fargo Corporate Trust Services (“CTS”), a leading US based provider of trust and agency services to government and corporate clients (the “Acquisition”).

The Acquisition is expected to generate attractive financial returns for shareholders. The purchase price of US\$750m represents an EV/LTM EBITDA acquisition multiple of 8.9x (pre synergies). After including stand-up capex, regulatory capital requirements and full run-rate synergies it represents an EV/LTM EBITDA acquisition multiple of 5.9x¹. The Acquisition is expected to be at least 15% Management EPS accretive on a pro forma FY21 basis including full run-rate synergies². Based on ongoing organic growth and cost savings, there is a clear pathway to CTS generating 15%+ return on invested capital by FY25³.

The Acquisition consideration will be funded through a combination of debt and equity. Computershare today announces the launch of an A\$835m (US\$634m)⁴ underwritten pro-rata accelerated renounceable entitlement offer with retail rights trading (“Entitlement Offer”). This structure is intended to deliver fairness to all eligible shareholders.

With over 80 years of experience in the corporate trust sector, CTS is currently appointed to administer corporate trust services to ~26,000 mandates across a range of securities and bond issuances, enabling the business to generate growing fee income and high quality, recurring revenue streams.

CTS is a highly strategic fit with Computershare’s existing Canadian and US corporate trust operations and its growth strategy. The combination is expected to accelerate Computershare’s position in the attractive US corporate trust market to a top 4 position⁵. With enhanced scale, the Acquisition is expected to allow Computershare to have greater exposure to positive, long term

EBITDA on last twelve months’ basis as at 31-Dec-20, with pro forma adjustments to IT costs, detailed on page 21 of the Investor Presentation. Post-synergy multiple includes US\$80m of pre-tax full run rate cost synergies expected to phase in over five years post Acquisition close. US\$103m in stand up capex and US\$115m in regulatory capital (excludes transaction costs).

² Assumes full run rate pre-tax synergies of US\$80m p.a. expected to phase in over 5 years post acquisition close.

³ CTS return on invested capital (ROIC) target by FY25 assuming consensus forward interest rate curve as at 18 March 2021.

structural growth trends in trust and securitisation products. Client deposit balances and money market fund balances of over US\$60bn will also transfer across as part of the Acquisition.

Computershare brings a long-term commitment to the corporate trust business with investment in new technologies and product development. The transition plan to separate and then integrate the business is well advanced, with US\$80m of anticipated pre-tax annual cost savings to be achieved over a five-year period post acquisition.

The Acquisition is subject to regulatory approvals and other customary closing conditions, which are expected to be obtained during the second quarter of FY22.

Computershare's CEO Stuart Irving said, "We are delighted to announce the acquisition of Wells Fargo Corporate Trust Services. It is a clear fit with our successful Canadian corporate trust operations and existing US operations. CTS provides scale with a top four market position, a platform for ongoing growth and increased leverage to long term growth trends and interest rates."

The Acquisition allows us to integrate CTS' deep client relationships and market expertise to deliver additional recurring fee revenue. We also see the potential for improved returns and margin expansion through new product development and innovative technologies, Computershare's core competencies. We welcome the proven and experienced CTS team to Computershare, and we look forward to working with them as we deliver on our growth strategy."

Leverage

Computershare remains committed to maintaining a prudent balance sheet. Pro forma net debt to LTM Management EBITDA at completion of the Acquisition is expected to be ~2.5x⁶. Leverage is expected to reduce to within Computershare's target neutral zone of 1.75x – 2.25x within 12 months' post completion of the Acquisition.
