

**COMPUTERSHARE COMMUNICATION SERVICES
OBTAINS ISO 9001 CERTIFICATION IN EL SEGUNDO FACILITY**

Continues to expand capacity and services to meet evolving client communication needs

EL SEGUNDO, CA., Oct. 3, 2012 – Computershare Limited (ASX:CPU), a leading financial services provider for the global securities industry, announced that their Communication Services facility in El Segundo, CA successfully completed the ISO 9001:2008 Registration Surveillance Audit. Bureau Veritas, a global leader in testing, inspection and certification, found zero non-conformances and has now awarded the facility its ISO 9001:2008 certification.

To meet ISO 9001:2008 standards, the team at Computershare’s El Segundo facility enhanced security measures, improved and tailored processes to meet the complex customer communication needs of financial institutions, and developed a distributive print model to guarantee uptime during natural disasters, power outages or any other type of systems disruption. Over the last decade, CCS has finalized a national distributive footprint, offering clients local USPS delivery time with cost advantages.

“We are honored to receive this accreditation as it allows us to provide clients with the confidence in outsourcing their mission critical customer communication programs delivered via USPS, electronic or digital mail channels,” said Bernie O’Connor, President, Computershare Communication Services. “Our vision is to build upon our integrated communication platform across all locations to maximize time and cost advantages.”

The physical production and mailing of client communications from the El Segundo facility is complimented by an integrated electronic communications suite that supports Computershare’s global commitment to sustainable and cost-effective solutions.

About Computershare
