1H21 Results

Business performance ahead of plan - interest rates impact earnings, dividend maintained and full year guidance upgraded

Notes: All figures in this presentation are presented in USD millions and in constant currency, unless otherwise stated. Reconciliation of statutory to management results can be found on slide 19. 1H21 Management Results include \$15.2m of one-off costs.

1H21 Management EPS

Strong operating performance and cost out programs driving above target 1H

¹ Reflects change in the amortisation period for interest rate-sensitive MSR from 9 to 8 years for US Mortgage Services. ² One-off costs reflect non recurring regulatory levy and a provision against a receivable for Class Actions. ³ Base Erosion and Anti-Abuse Tax for the US.

1H21 Summary

Growth in fee revenues and contributions from cyclical businesses

Issuer Services revenue growth

Employee Share Plans transactions recovery

Good contribution from cyclical Bankruptcy business

Consistent fee growth in Corporate Trust

Margin income client balances higher than plan

Volatile market conditions & ongoing foreclosure moratorium impacting US Mortgage Services profit, some revenues deferred

Cost out programs remain on track

Operating Performance supports positive 2H outlook

FY21 Outlook

We upgrade Management EPS to be down around 8% (previously down around 11%)

Guidance

- > In constant currency, for FY21 we expect:
 - **Management EPS to be down by around 8%¹**
 - **We expect Management EPS for 2H21 to be around 30.0 cents per share**
 - **EBIT ex Margin Income to be up by around 14%²**

Key Assumptions

- > Margin Income revenue expected to be around \$105m
- > Equity and interest rate markets remain at current levels / in line with current market expectations
- > Group tax rate between 28.0% - 30.0%
- > For constant currency comparisons, FY20 average exchange rates are used to translate the FY21 earnings to USD³

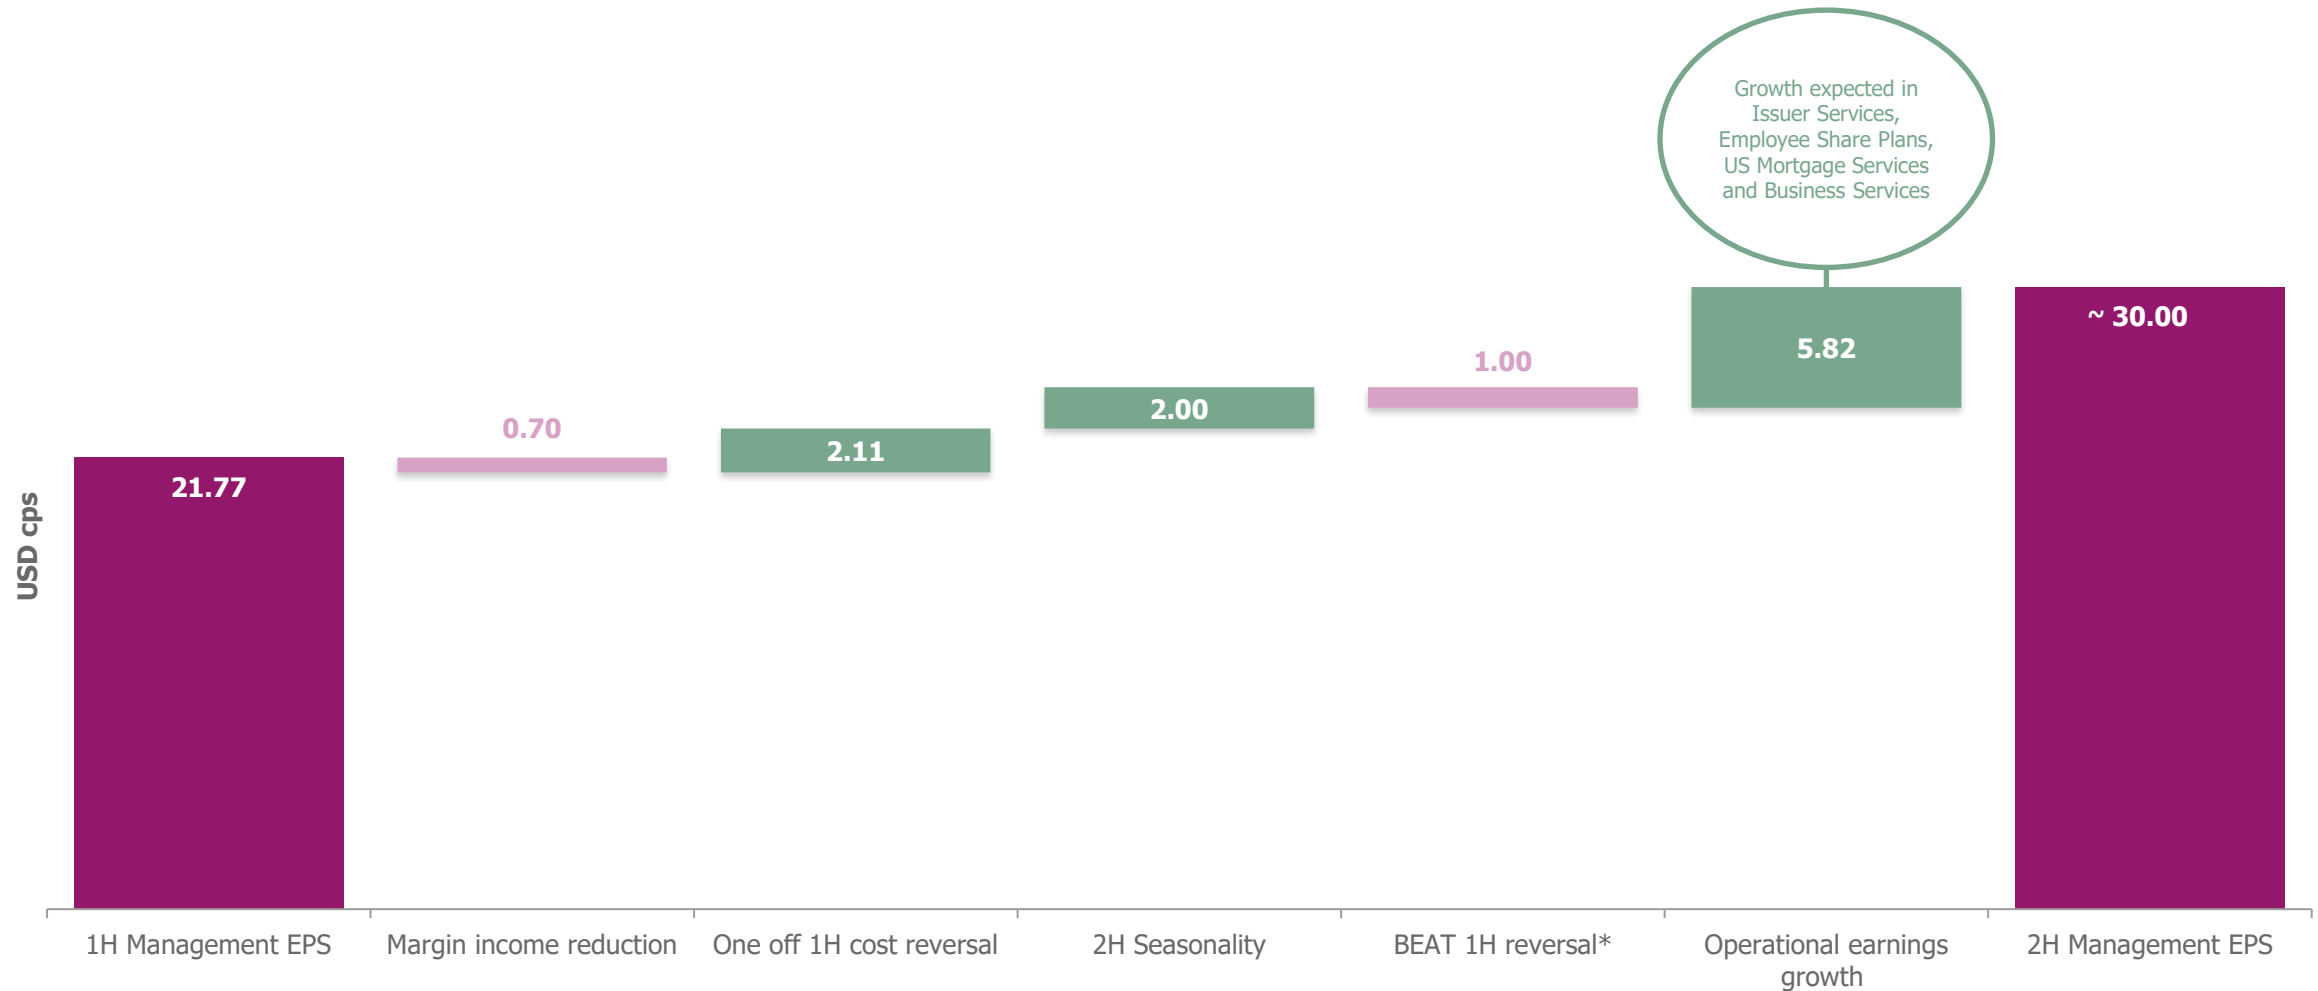

Management EPS (at actual FX rates)

Notes: ¹For comparative purposes FY20 Management EPS is 56.12 cents per share in FY20 constant currency, ² The base FY20 Management EBIT ex Margin Income is \$298.7m in FY20 constant currency; ³ Refer to slide 69 for constant currency conversion rates.

2H21 Management EPS guidance bridge

Consistent operational growth and cost out programs support positive 2H outlook

6 Notes: EPS breakdown is provided for indicative purposes and forms part of EPS Key Assumptions. FY20 Management EPS is 56.12 cents per share in FY20 constant currency, this assumes FY21 Management EPS per guidance, is around 51.77 cents per share. Refer to slide 69 for constant currency conversion rates. *BEAT is expected to reverse in 2H due to timing.

- > Management results are used, along with other measures, to assess operating business performance. The Company believes that exclusion of certain items permits better analysis of the Group's performance on a comparative basis and provides a better measure of underlying operating performance.
- > Management adjustments are made on the same basis as in prior years.
- > Non-cash management adjustments include significant amortisation of identified intangible assets from businesses acquired in recent years, which will recur in subsequent years, asset disposals and other one-off charges.
- > Cash adjustments are predominantly expenditure on acquisition-related and other restructures and will cease once the relevant acquisition integrations and restructures are complete.
- > A full description of all management adjustments is included on slide 20.
- > The non-IFRS financial information contained within this document has not been reviewed or audited in accordance with Australian Auditing Standards.

Management adjustment items

Appendix 4D note 2

Amortisation

- > Customer relationships and most of other intangible assets that are recognised on business combinations or major asset acquisitions are amortised over their useful life in the statutory results but excluded from management earnings. The amortisation of these intangibles in the half-year ended 31 December 2020 was \$21.4 million. Amortisation of mortgage servicing rights, certain acquired software as well as intangibles purchased outside of business combinations is included as a charge against management earnings.

Acquisitions and disposals

- > Acquisition related expenses of \$12.5 million were incurred for the ongoing integration of Equatex and \$1.2 million were for restructuring costs associated with recent acquisitions.
- > Disposal of the Group's shareholding in Euroclear Holding SA/NV resulted in a gain of \$8.9 million.

Other

- > Costs of \$19.3 million were incurred in the current reporting period in respect of major restructuring programmes spanning several years. These comprised specified significant cost-out initiatives, related workforce reductions and property rationalisations. In the current reporting period, these costs related mainly to UK mortgage services.
- > Derivatives that have not received hedge designation are marked to market at the reporting date and taken to profit and loss in the statutory results. The marked to market valuation resulted in a gain of \$0.1 million.

Mortgage services key terms

Performing servicing: Servicing of a mortgage which is less than 30 days delinquent. Typically loans that meet the criteria of the Government Sponsored Entities e.g. "Fannie Mae", "Freddie Mac".

Non-performing servicing: Servicing of a mortgage that is over 30 days delinquent up to management of the foreclosure process. Typically, non-performing servicing is performed over loans that are part of a securitization arrangement.

Mortgage servicing rights: Intangible assets representing an ownership right to service the mortgage for a fee for the life of the mortgage. The owner of the MSR can either service the loan itself or appoint a sub-servicer to do so.

Servicing advances: The owner of the MSR is required to fund various obligations required to protect a mortgage if the borrower is unable to do so. Advances receive a priority in any liquidation and are often financed in standalone non-recourse servicing advance facilities.

Part owned MSRs

- > An Excess Strip Sale refers to the sale of a stream of cash flows associated with the servicing fee on a performing MSR. The seller of the servicing strip has the ability to service the mortgage.
- > An SPV deal refers to the sale of the rights to the MSR and associated servicing advances into an SPV. CPU typically takes a 20% equity stake in the SPV and performs all servicing on the loans via a sub-servicing fee for service relationship.

US mortgage services – revenue definitions

Base fees – Fees received for base servicing activities

- > Fees are generally assessed in bps for owned or structured deals, while subservicing is usually paid as a \$ fee
- > Subservicing fees vary by loan delinquency or category

Margin Income - Interest received on mortgagor funds prior to distribution

Servicing related fees – Additional fees received from servicing a loan

- > Loss mitigation fees e.g. for loan modifications
- > Ancillary Fees e.g. late fees

Other service fees

- > Includes valuation, real estate disposition services, loan fulfilment services and CMC Coop Services
