SERVICE UPDATE

Date: July 7, 2016
Subject: Potential Canada Post Service Disruption

On Tuesday, July 5, 2016, Canada Post advised Computershare that it has issued a 72-hour notice to the Canadian Union of Postal Workers (CUPW). Canada Post provided a further update this morning that they have extended this notice to Monday, July 11, 2016 at 12:01 a.m. It is still unknown if a postal service disruption will occur.

In the event of a postal service disruption, we will initiate the next phase of our contingency plan:

1. Mail will continue to be produced for distribution following our normal production cycles;
2. Mail items will be packed, labelled and stored on-site at Computershare in order to facilitate First In First Out (FIFO) delivery; and
3. Once regular postal service resumes, Computershare will send out the mail on the same FIFO basis.

For issuers who have mailings that may be impacted by a postal service disruption, we have received updates from the following securities regulators:

› Canadian Securities Administrators (CSA)
› British Columbia Securities Commission (BCSC)
› Alberta Securities Commission (ASC)
› The Manitoba Securities Commission (MSC)
› Ontario Securities Commission (OSC)

We encourage you to consult with your legal advisors to determine how you should proceed with any upcoming mailings you have.
