

GLOBAL WIRE PAYMENTS SERVICE

How do I elect to receive payments through Global Wire Payments?

You can enrol through one of two ways:

If you have an Investor Centre account:

1. Login to Investor Centre
2. Once logged in, click on the 'My Profile' tab then click 'Banking Details'
3. Click the drop down box in 'Payment Method' and select 'Global Wire'
4. Select the company you have shares in
5. Click 'Next' and fill in the requested information

If you don't have an Investor Centre account: Click 'Create Login' in Investor Centre and follow the instructions, or complete a 'New Global Wire Instruction' form. A copy of the form can be mailed to you if required and a form processing and handling fee will apply, please contact Computershare Investor Services Limited on +613 9415 4000. Please ensure you have your SWIFT code (issued through your bank), preferred currency and banking details on hand.

What if I am already enrolled to receive foreign direct credit payments or foreign cheques?

This will continue as per usual. No changes will be made until you authorise the transition to Global Wire payments.

Computershare has engaged with Citibank, one of the world's leading suppliers of innovative payment and foreign exchange solutions, to offer you the ability to receive your dividend, distribution and other payments related to your shareholdings, in your local currency*.

What are the charges?

Citibank and Computershare do not charge directly for your use of this service[†]. However, if you elect to receive an electronic payment which is rejected and returned to Computershare because of incorrect banking information, replacement fees will be charged.

Your bank may charge a lifting fee for the handling of the transaction. To use this service, your payment must be a minimum of \$100 in the default paying currency of your company. Computershare has a minimum payment amount in place to reduce the impact of lifting fees on your final payment.

What happens if my payment is less than the minimum amount required to use this service?

The service will not be provided for that payment and you will receive your payment by way of cheque in the default paying currency of your company (generally being Australian dollars). Please refer to the [terms and conditions](#) for further information.

How is the exchange rate determined?

Currency exchange rates depend on the trading market, the value of the transaction and the fee arrangement in place with Citibank that processes the payment. The currency exchange rate will be determined by the nominated broker (Citibank) and a charge applied as a mark-up to the difference between the price at which the currency is bought and sold.

Can I receive my wire payment in a currency that isn't my local currency?

No - your bank account must be located in the destination country you select in order for the transfer to be made in that country's local currency.

What if I am enrolled in a full or partial dividend reinvestment plan?

If you are enrolled in a dividend reinvestment plan with the full reinvestment option, the full reinvestment option takes precedence over your Global Wire payment preference, and your payments will be reinvested to purchase additional shares.

What if I am a participant in the company's employee share plan - will my election to receive local currency apply to my employee shares too?

Yes. Your election will be applied to your holdings in the company's share plan if it is administered by Computershare Plan Managers Pty Limited (CPM), In particular, it will apply to proceeds from the sale of your plan securities[‡] or dividends and/or distributions and other payments nominated by the company, from time to time.

Current as of August 2016

* [Terms and Conditions](#) and eligibility criteria apply. Currency must be available under the Service. Payment can only be made in the local currency of your destination bank account.

[†] Computershare receives referral fees and/or commissions from Citibank N.A. for transactions under the Service. The Service Provider's return is generated from the spread applied to the exchange rate. Your bank may also charge you in connection with your use of the service. Please refer to the Terms and Conditions for more information.

[‡] The service that involves the sale of Plan securities is provided by CPM and CPM may apply fees and charges in connection with that service (which is governed by a separate set of terms and conditions and an FSG). For more information please visit www.computershare.com/employee

Global Wire is an available payment method for the currencies listed below. This list is subject to change at any time.
