This will continue as per usual. No changes will be made until you authorise the transition to Global Wire payments.

**What are the charges for receiving dividends and distributions in your local currency?**

Your bank may charge a lifting fee for the handling of the transaction. To use this service for dividends and

Computershare has engaged with Citibank, one of the world's leading suppliers of innovative payment and foreign exchange solutions, to offer you the ability to receive proceeds from the sale of plan securities and dividends, distributions and other payments, in your local currency\*.

distributions, your payment must be a minimum of \$100 in the default paying currency of your company. Computershare has a minimum payment amount in place to reduce the impact of lifting fees on your final payment.

**What happens if my dividend or distribution payment is less than the minimum amount required to use this service?**

The service will not be provided for that payment and you will receive your payment by way of cheque in the default paying currency of your company (generally being Australian dollars). Please refer to the [terms and conditions](#) for further information. Note: this minimum amount threshold does not apply where you are using the service to convert sale proceeds from the sale of plan securities.

**What are the charges for receiving sale proceeds in your local currency?**

Where the service is used in connection with the sale of plan securities, fees and charges may apply. These fees and charges will be disclosed to you on [Employee Online](#) prior to us carrying out your sale instructions. They are referred to in the Administrator Exercise and Sale Service Plan Terms and Conditions and detailed more fully in the Financial Services Guide that was provided to as part of your offer documentation for your plan.

**How is the exchange rate determined?**

Currency exchange rates depend on the trading market, the value of the transaction and the fee arrangement in place

with Citibank that processes the payment. The currency exchange rate will be determined by the nominated broker (Citibank) and a charge applied as a mark-up to the difference between the price at which the currency is bought and sold.

**Can I receive my dividend and distribution wire payments in a currency that isn't my local currency?**

No - your bank account must be located in the destination country you select in order for the payment to be made in that country's local currency.

**What if I am enrolled in a full or partial dividend reinvestment plan?**

If you are enrolled in a dividend reinvestment plan with the full reinvestment option, the full reinvestment option takes precedence over the Global Wire payment preference, and your payments will reinvest to purchase additional shares.

**Is my Global Wire election applied to all my holdings in this company?**

Any Election you make will be applied to any securities in the Company that you hold, outside of your employee share plan where those holdings share the same SRN and are administered by Computershare Investor Services Pty Ltd (ABN 48 078 279 277) (CIS) on behalf of the Company. In particular, the Election will apply to dividends and/or distributions made by the Company to its securityholders and such other payments as may be nominated by the relevant Company
