Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. The aggregated data in your workplace profile assists relevant employers in understanding the characteristics of their workforce, including in relation to occupational segregation, the position of women and men in management within their industry or sector, and patterns of potentially insecure employment.

NB. IMPORTANT:

• References to the Act mean the Workplace Gender Equality Act 2012.
• A formal ‘policy’ and/or ‘formal strategy’ in this questionnaire refers to formal policies and/or strategies that are either standalone or contained within another formal policy/formal strategy.
• Data provided in this reporting questionnaire covers the TOTAL reporting period from 1 April 2018 to 31 March 2019. (This differs from the workplace profile data which is taken at a point-in-time during the reporting period).
• Answers need to reflect ALL organisations covered in this report.

<table>
<thead>
