

ISSUER ONLINE

> REGISTRY MANAGEMENT & REPORTING, ANYTIME, ANYWHERE

FACT SHEET

Obtain critical information and insight, through a powerful web portal and a world class registry solution.

Combining the power of the web and our underlying global technology, Issuer Online can provide greater clarity and transparency of registered shareholder information.

Utilising sophisticated search and enhanced reporting functionality, Issuer Online offers you accelerated access to vital information and improved register performance, generating significant time and cost efficiencies.

Issuer Online delivers the certainty, ingenuity and advantage of self-service by harnessing the power of our technology, expertise and unparalleled portfolio of services.

WORLDWIDE ACCESS

Access Issuer Online from anywhere in the world, whether you are a single or multi-jurisdictional company.

RAPID ENQUIRY FACILITY

Get around the clock access to holder information, including registration details, reinvestment plan elections, payments and payment instructions, and electronic communication elections, to name a few.

REDUCED RISK

Protect sensitive information through our single point solution and fully secure system.

MESSAGE ALERT AND KNOWLEDGE MANAGEMENT TOOLS

Access information on corporate issues such as the steps for dividends or AGMs and be alerted to any changes in legislation, industry events, key dates and much more.

FEATURES FOR GLOBAL ISSUERS

For multi-listed companies, Global Issuer Online offers a premium service based on our Portis technology. This includes enhanced search and reporting features such as global Top Holder and Aggregate Register reporting, global holder search across all registers, and the seamless extraction of locally-held information for further insight.
